## Introducing BORCON Steel Technology

BORCON is a unique metal composition designed to give an aesthetic rust look. It is a beautiful material and is being used in residential and commercial properties for its warm, weathered and lasting natural look.

Because of its unique “natural” and long lasting finish, BORCON will become the preferred alternative to current metal edging products such as galvanized steel, aluminum, plastic and / or powdered coated.

## BORCON Key Differentiators

Ideally suited for commercial and residential properties that desire a natural and rustic patina look and feel to their landscape design or in high corrosion environments.

BORCON naturally patinas forming its own beautiful and natural protective coating leading to over 5X the longevity of normal steel.

BORCON’s natural finish provides an environmentally friendly, low maintenance, warm and industrial look.

## What Properties Does BORCON Steel Have?

BORCON’s steel weathering properties has increased resistance to atmospheric corrosion in comparison with other steels. pH Factors that destroy aluminum are not.

This is due to the protective layer the steel forms on its surface under the influence of the weather.

By forming a patina film of dark brown oxidation BORCON Weathering Steel successfully resists the corrosive effects of weather conditions such as rain, snow, ice and fog.

In this way, the protective layer prohibits deeper penetration of the elements and eliminates the need for painting and the expense of rust-prevention maintenance over the years, saving both money and time.

## BORCON Uses

- Steel Edging • Tree Rings and Squares • Planters
- Planter Bed Support • Paver Restraints

**Landscape architects and designers will appreciate BORCON weathering steel due to the following:**

- Combination of strength and durability with minimal thickness, resulting in the creation of fine, elegant solutions for the outdoor space.
- Natural, warm, and specific hues, which easily blend into the overall landscape and add to the identity of a unified site.

**BORCON Key Differentiators**

- Dynamic Appearance and Texture
- Beautiful patina
- Increased flexibility and workability
- Long-Term Performance / Long-lasting  
(Longer Lasting & Less Expensive than Aluminum)
- Less Expensive vs. comparable products
- Low-maintenance
- Save time and money without having to touch up or re-paint
- Perfect for LEED Projects
- Made from over 60% Recycled Steel
- Environmental Benefits
- Made in the USA

**BORCON Steel Specifications - Stock Sizes**

<b>BORCON Line™</b>	1/8" x 4" x 10' or 16'
<b>BORCON Stretch™</b>	1/8" x 6" x 10' or 16'
<b>BORCON Guard™</b>	3/16" x 4" x 10' or 16' 3/16" x 6" x 10' or 16'
<b>BORCON King™</b>	1/4" x 5" x 10' or 16' 1/4" x 6" x 10' or 16'
<b>BORCON Stakes™</b> <b>BORCON Super Stakes™</b>	3/16" x 15" Long 3/16" x 24" Long 4 per length on 10' pieces 6 per length on 16' pieces

**CUSTOM SIZES AND SHAPES AVAILABLE!**

## About Border Concepts, Inc.

Border Concepts was founded in 1990 as a steel landscape edging systems manufacturer.

Through the years, this grass roots business has grown organically, expanding its Commercial Landscape product lines based on the needs of the our customer base:

- Landscape Architects
- Landscape Distributors/Supply Yards
- Landscape Contractors
- General Contractors
  
- We offer the best quality and price point for our customers nationwide.
- When it comes to developing and manufacturing specialized products for the landscape, lawn and garden industry, we're innovators.
  - Custom Projects are a Core Competency
- The BCI team is all about providing creative solutions, manufacturing exciting new ideas, designs, sizes and shapes.
- Our experience works in manufacturing original custom solutions, tailored to meet your specific needs.
  
- BCI is multifaceted with a 100,000 square foot manufacturing plant in Lexington, North Carolina, a 100,000 square foot distribution facility in Lexington, North Carolina, a 32,000 square foot facility in Kent, Washington, and headquarters in Charlotte, North Carolina.
  
- **Our Categories:** Commercial Landscape Edging; Custom Fabrication; Ball Carts; Wrought Iron; Commercial Pottery; Tomahawk Tree Stabilization System and Hippo Tree Water Bags.

**BCI is your one-stop shop for all of your landscape edging & planter needs.**

**However you're looking to improve your commercial outdoor space, BCI provides the products and accessories you need to get the job done.**

**Charlotte Location**  
7621 Little Ave.  
Suite 426  
Charlotte, NC 28226  
Fax: 704-541-5610

**Seattle Location**  
21007 72nd Ave. S.  
Kent, WA 98032
